

Introduction to the MEDICINE WHEEL

Facilitated by HOLLY GRAY SCHUCK*

The focus of this one day workshop is use the medicine wheel as a transformational map to help us develop and refine an Earth-Centered spiritual practice. As an ancient symbol, the Medicine Wheel can help us to see how things in life are interconnected and how we fit as humans with the rest of creation. This is a deeply personal workshop where we begin to find oneness with the Great Mystery, using the model found in the indigenous teachings in South America and North American. Activities include working with medicine bundles, ceremony, guided imagery, energy work and journeying finding our power animals.
